Education

B.S. Computer Science - Auburn University, Auburn AL.

May 2023

About Me

- I am very ambitious and passionate about Software Engineering, DevOps, and Web development field. I am always willing to learn and fulfill any requirements to get any project done. I am seeking an opportunity to gain experience and sharpen my skills in front-end or back-end development. I know a vast number of programming languages and tools. Also, I know about data structures and algorithms, and which and where they apply at the right time.

Projects

Nike clone page Website #1

- Built a model shoe landing page site like Nike in JavaScript to control CSS elements.
- Mobile first design
- Used HTML and SASS/CSS as front-end languages.
- Learned about design and modeling of a website.

eBook page Website #2

- Built a functional website showcasing an eBook and its contents.
- Used HTML, CSS/SASS, and Bootstrap.
